The Challenge
Calling all book nerds (and culture critics of any type): our latest guide challenges you to make an app that collects and shares original reviews of your favorite -or most detested- books.
We were once again inspired by our friends at YR Media, who reported earlier this year on an intriguing subculture: young people on YouTube who make bootleg audiobooks, some with huge followings. Cool, right? But is it legal...? Check out YR's story to find out.
And while you're at it, create your very own mobile platform for reviews -yours and your friends'- so that next time you're in the market for a book, you'll know just which titles to pick...and which to skip.
Click "Connect Your App" below to start building your app!
